"I found the Desert Winds music/drill package to be a great fit for my students and the program. It was quality work, at the appropriate difficulty for us and the package streamlined the whole design process. It was nice knowing many details of show planning were already done and ready to go. The addition of the choreography made everything efficient and easy to coordinate. We had a great deal of fun, as well as success with that show and I would say it became a favorite for my students. I would certainly recommend this package to anyone for its cost, quality and student appeal."
